# Research

- The Vision 2030 Pond Team Views Itself in Support of the FGHP re Project Research. This work has already been done by a Skillful, Capable Assembly. There's no Need to Duplicate the Work.
- The Key Projects Currently in Play are:
  - With the Goal of Improving Flushing of GHP and Restoring the Pond's Quality;
    - Redredging of the 3500 Ft Link Channel Between the Charlestown Breachway and Green Hill Pond
    - Dredging the Connection Between Ninigret Pond and Green Hill Ponds
  - Soliciting Volunteers from GHCA for Water Sampling in Prep for Modeling
  - Organizing Educational Programs for our Membership Re Pond Restoration
